

What are the Next Steps from here?

From Role Deconstruction to Intelligence and Automation

CHOOSE THE RIGHT AUTOMATION LEVEL

NO TOUCH

Fully Automated

AI handles end-to-end.
No human intervention needed.
(High confidence, low risk)

LOW TOUCH

Human Review

AI executes and recommends.
Human reviews or approves.
(Balanced confidence & risk)

HIGH TOUCH

Human in the Loop

AI assists or augments.
Human makes the final call.
(Low confidence, high risk)

NEXT LEVEL DISCOVERIES

- What is still manual / not digitized?
- What additional data or systems are needed?
- How can we make the process even lower touch?

KEY ENABLERS

QUALITY DATA
Right data, right quality, right time

DATA & ACCESS GOVERNANCE
Secure, compliant and controlled access

MODEL & ANALYTICS
Right models for the right problems

HUMAN OVERSIGHT
Keep humans in control where it matters

MEASURE & IMPROVE
Continuously evaluate, learn and improve
